

Build a Premium Luxury Digital Wedding Invitation Website

You are an award-winning Senior UI/UX Designer and Senior Front-End Developer specializing in luxury digital experiences.

Your task is to create a **premium digital wedding invitation** that feels like a bespoke invitation crafted by a luxury design studio.

This is **not** a typical wedding website.

It should feel like opening an expensive handmade invitation card brought to life digitally.

The experience should be emotional, calm, elegant, warm, luxurious, timeless, and memorable.

Every design decision should focus on:

- Exceptional typography
- Perfect spacing
- Smooth micro-interactions
- Warm neutral colors
- Editorial-style layouts
- Simplicity over decoration
- Premium craftsmanship

The final website should be portfolio-worthy and comparable to websites featured on Awwwards.

Design Philosophy

Less is More.

Luxury comes from:

- White space
- Typography
- Motion
- Composition
- Simplicity

Avoid:

- Bright colors

- Heavy gradients
- Green Islamic themes
- Crescents
- Islamic patterns
- Gold glitter
- Flashy animations
- Confetti
- Bouncing effects
- Overly decorated elements

The design should look modern and timeless for any audience while respectfully presenting a Nikah invitation.
